

EXHIBITS & EVENTS

COMING SOON...

FROM EARTH TO THE UNIVERSE

November 9, 2009-January 31, 2010

In acknowledgement of modern astronomy's quadricentennial and in cooperation with TAMU's George Mitchell Institute, the Museum will offer this exceptional exhibition of fantastic images of the Universe captured by ground and space-based telescopes. Stunning images of the cosmos will convey the fine aesthetics of the starry realm while communicating details about the scientific knowledge and understanding behind them.

These programs made possible in part through Hotel Tax Revenue funded from the City of College Station through the Arts Council of Brazos Valley. Additional underwriting provided by the William Knox Holt Foundation..

MUSEUM WISH LIST

A Special Plea for Carey

Our beloved Iguana, **Carey**, is in desperate need of a new habitat. Please consider donating funds dedicated to the replacement of her dwelling.

As we proceed with ongoing Museum renovation efforts, we are working hard on plans to restore the Discovery Room to its original use as an active learning center. Improving the living space occupied by all our live specimens is an essential part of those plans and of our mission to educate the public about environmental stewardship.

Please help us to make it beautiful for you and more comfortable for our wonderful living exhibits and **contribute today!**

SUPPORT YOUR MUSEUM...

There are many ways you can support your Museum...
