

*Come enjoy your lunch while learning about the Earth!*

**Human Values and the Ecosystem**

This new brown bag lunch course for adults examines the relationship between biological realities of life on Earth and our human impact. It will be taught by Dr. Lynn Lamoreux, a retired Texas A&M scientist, whose background is in ecology and genetics. The *Bare Bones Ecology Energy Workbook* will be included in the price of the course.

Tuesdays, 12 noon –2 pm September 14 - October 19, 2010.

Two hours per week for six weeks.  
Enrollment is limited to 16; Cost is \$30  
Call the Museum for more information and availability.
