CREATURE FEATURES

SPRING MINI CAMP 2024

Bryan, TX — The Brazos Valley Museum of Natural History is pleased to announce its Spring Mini Camp program, **Creature Features**, March 11-15.

The animal kingdom is filled with creatures with unique features! Join our fun as we travel around the world studying the amazing vision, hearing, & locomotion of select animals, and their incredible hunting and survival skills. Through lessons, interactive games, and crafts, we will discover fascinating creature features found throughout the animal kingdom.

Campers will also enjoy specimens and exhibits from the Museum's Collections, a rare opportunity to see real items illustrating the fascinating abilities of many animals.

Students may come for one day, for several days, or even all five. Explore different animal topics including: **Enhanced Eyes & Ears; Teeth, Tongue & Taste; Animal Armor; Terrific Tales; Fancy Feet.** Join us for adventures in creature features!

Studying history and science helps children, ages 4-12, to learn and understand the world around them. The Brazos Valley Museum Natural History offers children learning opportunities in a safe, fun, and educational setting.

The Museum facilities include classroom areas, the Discovery Room, and a 40-acre park, all used to enhance the learning experience. Staff members are experienced teachers and, to ensure personalized instruction, classes are kept small. Classes fill up quickly, so register [online](#) today!

Admission to the Museum is \$5 for adults; \$4 for children, students, and seniors. Members and children 3 and under are free. The Museum is open Tuesday through Saturday from 10 a.m. to 5 p.m. For more info, call (979) 776-2195, follow them on Facebook, or visit www.brazosvalleymuseum.org.
